PRINCIPAL REPORT

Introduction : It gives me an immense joy to pour out my heart of gratitude to all my dear beloved students, staff colleagues, SMC member, parents and all supporters, on this auspicious occasion "the 21st, Annual Day cum Valedictory Ceremony" on the 14th March, 2022. Our valuable collective efforts enable us to witness this blessed Day. First of all, I thank God who protects our life in various threads, and being with us always, and showing a showers of an ending blessing upon the School. It is a privilege and honour for me to bring a brief report for this academic session. The Synord Foundation

English Medium School is a co-educational institution, which begun its journey in 2001, as a project of the Evangelical Synod Society (ECCI). in West Tripura with a handful of students under a thatch roof in a single room. Now, God bless the institution and it grows up to Senior Secondary level, and above 1000 (one thousand) students had enrolled, and many of our past out students had completed their graduations in different professional branches and worked in various sectors. From this academic session 2022, we have a plan to offer both Science and Humanity streams in Senior secondary class.

Mission Statement : Our mission is "to develop each child to his or her fullest potential, spiritually, intellectually and physically, that each one may grow in grace, enjoy freedom through knowledge, and lead a healthy productive and meaningful life."

Vision Statement : Our Vision is "to create suitable learning environments, and develop responsible, God fearing, and Good Citizens who would be bright leaders of the society, community and Nation by laying a superior Foundation of truth through quality Education." meaningful life."

Vision Statement : Our Vision is "to create suitable learning environments, and develop responsible, God fearing, and Good Citizens who would be bright leaders of the society, community and Nation by laying a superior Foundation of truth through quality Education"

CBSE, Affiliation Upgradation : We are very happy to inform you that, CBSE, has granted Affiliation of our school up to Senior Secondary level (Up to class XII) both Science and Humanity, with effect from 15th April, 2022 for a period of 5 (five) years.

Academics : It is the core focus of our school. All possible efforts have been taken to ensure academic excellence in the school. We believe that excellence in academics is the hall mark of our, as a good institution.

Online Classes : During the pandemic period as per the government instructions exclusive regular online class were commenced. We used e-camp online class model which is one of the latest and safest technology under made by Hembro.

Physical Class: As per the state government guideline physical class was resumed for all class with effect from first week of February. Attendance of class was made mandatory in order to provide quality education.

The school curriculum : One of the major goals of the AY 2021-22 is to have a competent curriculum. During the lockdown period for online class curriculum was modified. Most of the curriculum and co-curricular activities were covered and conducted properly. Assessment system and students attainment: Our assessment system is stress free, and helpful to enhance students achievement and progress. Regular assessments have been conducted throughout the session.

SUCCESS

BY MADAM SWEETY DEBBARMA (TGT MATHEMATICS)

Success is a journey not a destination. Success is a sense of satisfaction and joy experienced in everyday living. Many people, who are successful in the eyes of others, complain that they are still unfilled, still unhappy. Successful people have a purpose in life, take risks, and exercise the control of one's life, solve problems rather than blame others, care about quality and share expertise. Success knows what is important to you, what has value and meaning. And the determination to achieve your goal that is success.

THE EVILS OF SOCIETY BY ELSY K.A (TGT S.ST)

Meet Sam from Delhi. He is 16 year old and has already been to a rehabilitation centre. He started drinking and smoking since he was 13. Meet Michael And Nikhil from Mumbai Aged 17. They are famous among their group for throwing big parties with unlimited flow of alcohol and marijuana.

These characters have not been pulled out from any Bollywood movies or fiction. Unfortunately they are 'real' children who see no wrong in abusing substances and drugs. Today many drug and other illegal addictive substances have become the trend of the society. As men evolved, these small but dangerous substances have also metamorphosed to become huge and uncontrollable. They've spread their roots in every nook and corner of the society. They can be termed the "evils of the society".

These particular addictions are generally found in the teenage groups. According to WHO 9.7% teenage girls in India use some form of tobacco. Similarly 17.3% teenage boys have taken to smoking. What prompts these teenagers to experiment with addictive substances and drug abuse? Experts point out various reasons: to kill boredom, to be accepted by peers, to escape from family problems or to relieve the tension of not performing well academically. Also, taking drugs or abusing substances is seen to be the easiest route to gain popularity and feel accepted. But to their misfortune, these addictions can lead to many diseases. In women, it is found that smoking reduces the rate of fertility. Hardcore level smoking imbalances estrogen levels in women. Addictions to heroine and cocaine lead to major destruction of the body parts. These substances also activate the cancer cells present in our body and cause various chronic and lung cancers.

Many millions of drug addicts have sought rehabilitation. Upon asking for help, an addict must learn to accept the fact that even if they give up drugs, they will still be addicted to them forever. It becomes their goal to live 'one day at a time' by not having any drugs that day, rather than dwelling on staying clean for their entire lifetime, which may seem to be an overwhelming task.

MATHS IN DAILY LIFE

BY SIR DHRUBAJYOTI DEB (TGT, MATHEMATICS)

The truth is that we use math all the time. We experienced mathematical application in daily life from the time we get up from bed and till we go to bed at night. A cook as a farmer, carpenter, a mechanic, a shopkeeper, a doctor, an engineer, a scientist, a musician or a magician, an artist, or a tailor, etc. every one Mathematics. It help us to do many things that are important in our everyday life. Here are some:

Managing time : If we can manage time properly, we can do our daily work more effectively and efficiently. For this we need Math.

Budgeting : It is very important to make a budget keeping a balance between earning and spending. Without Math it is not possible.

Sports: In the field of Sport also Math needed.

Cooking : For cooking, we need to measure the quantity of ingredient in proper ratio.

Stitching : While stitch, we need to measure the length of the cloth properly, for this we need Mathematics. Hence, Mathematics is a tool in our hands to make our life smoothen. The more Mathematical knowledge we are in our approach, the more rational would be our thoughts. It is time to understand the important of the subject and enjoy the beauty of it.

PRINCIPAL REPORT

Students Attendance : The average students attendance for this academics year is 85% and the over all attendance from April to February was 75%.

CBSE, AISE Result : The Sixth batch of class X students, appeared the CBSE, board exam in 2021. Out of 71 candidates, all the candidates passed the examination. The topper of the was Ms. Ismika Debbarma, She scored 88 percent.

National Festivals : The school observed all the National Festivals and State Festivals with the active participations of students representing the four houses and NCC Cadets.

Prospective plan for 2022-23 : We have prospective development plan for the new academic session such as; Composite Laboratory for Mathematics, Sciences, Computer, library, physical education, sanitations, colorful room and campus for pre-primary class, better transportation facilities, etc.

Conclusion: We believe that we could do wonderful job for the last 20 years of operation of our school, we witness some new things every year, number of students increase with excellence performance in the School level and Board level examination. On this memorable occasion of our 21st Annual Day, as we recount our achievement and success with pride and happiness. I would like to dedicate whatever we could achieve, to our beloved students, committed team of staff and valued parents. I thank our SMC member for their wholehearted encouragement and continue support.

We seek the blessing from the God Almighty to help and guide us in the future in the direction. Thank you.
